Ophthalmic Surgeon &
Retinal Electrophysiology

Montgomery Center
8630 Fenton Street, #514
Silver Spring, MD 20910
301-587-1220

Things to know about ERG Appointments:

The patient will be at the appointment for at least 2 hours. Not all of this is test time. Once you arrive, your eyes will be dilated. You will then wait for approximately 45 minutes to an hour until your eyes are sufficiently dilated for testing.

There are several parking options near us. You will need to bring quarters/change. Please be aware you will need at least 2 hours of parking. Metered parking is available on the streets. There is also a large indoor PUBLIC Parking Garage diagonal to our building. The entrance is on Cameron Street. To use the public garage, you may use change or the PARK MOBILE app.

There is Valet Parking in our building. Enter our building garage from Cameron Street.
Costs for Valet Parking in the Montgomery Center are:

\$10.00 for the first hour. Maximum cost is \$15.00. Cash only.

If you are unable to keep your appointment, please give us a call and let us know. We do charge for missed appointments.

Directions from 495 beltway- take Georgia Avenue South. Go about 1.2 miles and turn left on Cameron Street. Come to the first light (Fenton Street) and turn left into the public parking garage. Come out of the garage and you will see the Montgomery Center sign across the street.

To drive into our valet parking, you will see the entrance to the Montgomery Center Parking on the right after turning onto Cameron Street.

We are about a 10 to 15 min. walk from the Silver Spring Metro Station.

If you have any questions, please feel free to call Vicki at (301) 587-1220 and press 4 when the message starts.
